# MEET YOUR LEARNING OBJECTIVES

We have been successfully running student events since 1991 and have inspired thousands of learners at our conferences year after year.

The conference itself brings learning to life for your students through high quality speakers sharing relevant, real-life experience and case studies. Interactive Q&A sessions engage students and can inspire future study and career choices.

Our curriculum-linked presentations cover key syllabus topics at KS4 and KS5 for all of the leading exam boards – **AQA, OCR, WJEC, SQA, Pearson Edexcel** and **BTEC**. These unique events will motivate your students and provide invaluable information and potential future careers inspiration.

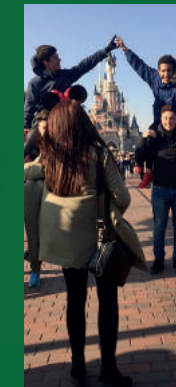

Our exclusive, interactive student workbooks encourage your learners to apply their new found knowledge in the Disneyland® Paris parks in a practical, fun way.

With more than one event taking place on the same day, combine your trip with another department and bring a bigger group and save money.
