SCIENCE LIVE! EVENT FOR KEY STAGE 4 STUDENTS

SCIENCE LIVE! is an immersive event designed to bring the curriculum to life and show your students the subject in action. Learners get the opportunity to come face to face with speakers who are specialists in their field who provide relevant examples and case studies for exams. Our quality speakers are chosen based on their ability to meet the learning objectives of the Science curriculum at KS4, which your students can then take out into the Disneyland® Parks and apply in a practical and fun way. The whole experience perfectly complements classroom learning.
